

SPA EXPLOSION PROOF HAZARDOUS AREAS Pendant control station

Explosion proof pendant control station for auxiliary control. Rugged, sturdy and reliable, SPA Explosion Proof is designed for heavy industry in potentially explosive areas.

FEATURES

- Enclosures with actuators placed on a double row to enable grouping of a large number of functions in a single control.
- The emergency stop mushroom pushbutton complies with standard EN418.
- Mechanical life of switches: 1 million operations.
- IP protection degree: SPA Explosion Proof is classified IP66.
- Extreme temperature resistance: -20°C to +55°C.
- It features solid but light weight body made of aluminum, or stainless steel AISI 316 or chrome-plated cast-iron (optional versions), resistant to temperature changes and corrosive environments.

OPTIONS

- Available in configurations from 2 to 12 actuators, arranged on a double row.
- 1 or 2 speed switches with NO or NC contacts.
- Mechanical interlock to prevent simultaneous operation of opposite functions.

CERTIFICATIONS

- CE marking.
- Atex certification EN 60079-0: 2012+A1: 2013, EN 60079-1 Ed.7: 2014, EN 60079-31:2014.
- Conformity to Standards IECEx IEC 60079-0: 2011, IEC 60079-1: 2014, IEC 60079-31: 2014.

Fill in the "request form" to configure properly the product.

SPA EXPLOSION PROOF - REQUEST FORM FOR CONTROL STATION

Instructions

Fill in the chart according to the number of control elements required (2, 4, 6, 8, 10 or 12 buttons).

1 Protection: tick the box corresponding to the type of protection required.

2 Control elements: enter in the broken-line box the number corresponding to the control element required (from **1** to **13**) according to the legend.

If you choose **buttons with arrows**, mark the direction of the arrow into the corresponding box Eg. 

ATTENTION: buttons with opposite functions (eg.: up/down) must be vertically coupled in columns.

When mounting **mushroom pushbuttons** or **selector switches**, the corresponding rocker button is disabled.

Depending on the functions of the control elements chosen, either 1 speed or 2 speed **switches** will be used.

3 Optionals: tick the box corresponding to the eventual optionals required.

Protection **1**

Ex II 2 G II 2 D
Ex d IIB T6 Gb or Ex d IIC T6 Gb
